RE: REQUEST TO RESTORE ACA ACCESS FOR DACA RECIPIENTS IN LIGHT OF COVID-19

Dear President Biden and Secretary Xavier Becerra:

The 320 undersigned national, state, and local organizations in the areas of immigration, health, civil rights, human rights, labor, faith, and education respectfully request that you direct the U.S. Department of Health and Human Services (HHS) to restore access to benefits under the Patient Protection and Affordable Care Act (ACA) for Deferred Action for Childhood Arrivals (DACA) recipients in light of the COVID-19 pandemic. Access to COVID-19 testing and treatment for DACA recipients and their U.S. citizen children is absolutely critical during this pandemic, particularly for the 202,500 DACA recipients employed as essential workers on the frontlines of COVID-19 to keep our country healthy and running.¹ Specifically, we request that HHS issue a Notice of Proposed Rule Making (NPRM) with a 30-day comment period that would repeal 45 C.F.R. § 152.2(8), which excludes DACA recipients from the definition of “lawfully present” and, consequently, benefits under the ACA.² Issuing this NPRM within the first 100 days of the administration is critical, for any additional delay in healthcare access during the COVID-19 pandemic puts the health of DACA recipients, their families, and the wider community at risk.³ President Biden has also made a commitment to expand access to the ACA for undocumented immigrants, including DACA recipients, and rescinding this harmful regulation will help deliver on that promise.⁴

As a result of the regulation, DACA recipients cannot: (a) generally obtain comprehensive health insurance under Medicaid or CHIP in their state; (b) purchase health insurance in the ACA’s health insurance marketplace, even at full cost using their own funds; and (c) obtain federal tax credits to make private health insurance affordable (even though DACA recipients still file and pay federal taxes) in the marketplace.

² The language in question reads as follows: “An individual with deferred action under the Department of Homeland Security’s deferred action for childhood arrivals process, as described in the Secretary of Homeland Security’s June 15, 2012, memorandum, shall not be considered to be lawfully present” 45 C.F.R. § 152.2(8) (2012).

³ The APA states that an agency may forgo the requirement that an NPRM be published at least 30 days before its effective date if there is good cause to say that the procedure would be “impracticable, unnecessary, or contrary to the public interest. . . .” 5 U.S.C. § 553 (2018).

Under DACA, immigrant youth with long-term residency in the United States who satisfy a strict set of criminal background and educational criteria are eligible for employment authorization and protection from deportation.⁵ Rescission of the regulation, originally implemented under the Obama administration, would restore access to the ACA for approximately 650,000 current DACA recipients and would ultimately benefit a total of 1.7 million with the restoration of DACA.⁶ The regulation unnecessarily excludes a significant pool of young, healthy adults—the exact type of participants that Congress sought to encourage to participate in the ACA—in the midst of a global pandemic. The regulation promotes worse health outcomes for DACA recipients and their families by foreclosing access to health care, including unsubsidized purchases on health care exchanges, and creates counterproductive barriers to COVID-19 testing and treatment.

In furtherance of this administration’s commitment to reduce regulatory burden and expand access to health care, we ask that you undo this misguided regulation. Thank you for your consideration of this request. If you have any questions, please contact Jose Magaña-Salgado at (480) 678-0040 or at jose@masadc.com.

Sincerely,
